

Use the Biopsy Kit for malignant tumors only.

At the time of biopsy we request diseased and healthy tissue as well as blood, urine, feces, hair and nail samples. A strong suspicion of malignancy is required to use the biopsy kit.

Use this chart to help you decide if using the biopsy kit is appropriate.

Remember to complete an additional veterinary visit online questionnaire after confirmation of any malignancy. Please see the Biopsy Kit: Collection and Shipping Instructions at caninelifetimehealth.org for details. **If you have any questions, please contact the study team at 855.4GR.DOGS (855.447.3647).**
